The changes in quotations for Government ands are an advance of 36 per cent. in coupon per cents and the 4's and a decline of 1/4 in the s. There were sales of the S's at 103 and the 4% er cents at 11134.

State securities have been quiet and steady, exept a decline of 2 per cent, in Michigan 7's and

Der cent. in Missouris. There has been a very decided reaction in to-day's tock market. Prices at the opening were 1/4 to 3/4 er cent. lower for most of the active list with me exceptionally greater declines, and after and trading for a quarter of an hour, there was a decided break, with increased activity during the next fifteen minutes. The decline was then becked, and the market became dull and stronger. This operation was repeated several times during the day. The declines were accompanied by increased trading, and the railies, which were slight, developed inactively. In the last half hour there was a general raily, especially in the riould stocks, and in the case of Western Union the closing quotation 1. a shade higher than on Saturday, but with that exception the scrive list was from 1 to 2% tower than on Saturday. The greatest declines were in Delaware and Hudson, 2%: Pacific Mail, aul, 14; New Jersey Central, 15, and New York Central and Central Pacific each 1 per cent. The per cent., except Northwestern, which is down is central of New Jersey and Central Pacific, each I: Lackawanna. 134, and Delaware and Hudson, 254 per cent. There was a considerable increase in the amount of business done during the islay, the total sales being 236,736 shares, but, of this business, Lackawanna contributed 62,800 shares and Union Pacific 39,600 shares. Over onehaif the total sales were made during the forenoon. The lowest prices of Western Union, Union seific and Lackawanna were reached in the loreroon, while the lowest prices of the grangers, the Vanderbilts and the rest of the active list were

made after 2 o'clock. The street was unusually free of rumors having an effect on prices, and the decline to-day is reac ion following last week's advance and the efforts of the bears to make the most of the rumors that the railroad war is not ended. The trading in Erie seconds censols to-day was \$999,000, leaving about an average business for the remainder of the list. The closing prices this evening are irregular, the most noticeable changes being a de-letine of 1% in the C. B. and Q., Iowa division, fours at 94%: 1% in the St. Paul firsts. La Crosse division, at 160, 1% in Lake Shore division bonds at 121; 1% in Louisville and Nashville, E., H., and N. firsts at 198%; ½ in New York and New England firsts at 117%; ½ in Central Pacific gold bonds at ¼, and 1

in the California and Oregon (series B) 6s at 101; he in Toledo, Pecris and Western firsts at 72% New York. Susquehanna and Western first coupons morning at 50 and during the forenoon sold down to 48%, with sales of \$395 000. The transactions in the afternoon were only a little over \$100,000, and the price was about steady closing with a slight rally, however, at 49—a net decline of 1 per cent. Broker, No. 21 Board of Trade. CHICAGO, Ill., May 25 .- Wheat has ruled dull, but strong, without any notable features. No English cable to-day, owing to holiday. Foreign advices indicate the Russian-English controversy still smoldering, and liable to flare up again when least expected. England is continuing war preparations. Advices from England indicate her wheat crop very backward, and the weather unfavorable. The market has been stabbornly held above 91c for July, and, considering the weakness in corn and oats, shows considerable inherent strength. The increased receipts of corn and oats caused free selling and lower markets. The receipts for to-morrow, as estimated, are corn 703 and cats 400 cars. The receipts of hogs to-day were 35,100 head. This is unusually large for this season of the year, and indicates that farmers are getting rid of their hogs, in order to sell their coru instead of feeding it. The prospects are that we

shall have continued larg and hogs, and probably lo

## Produce Markets.

CHICAGO, May 25 -The speculation in wheat to day was very limited and trading on the regular Board dragged rather heavily. This was accounted for in part by the absence of any foreign news, the British Exchanges being closed. There was nothing in the home situation essentially different from what has been known to the traders for a week past. The receits here were somewhat larger, and this, in addition to fine weather for the growing crops, caused a somewhat weakened tone until alternoon, when the feeling was some what stronger, and the market closed for the day a shace higher than Saturday. There was a good speculative business in corp, and the feeling developed was unsettled and weak, and the fact of a good many "stop orders" being on the market helped the decline. Fine weather for the growing crop, together with an anticipated liberal increase in receipts to morrow, brought out tree offerings. The shipping demand was limited, though the sales of cash corn to go in store were large. The market close 1 for the day about %c under Saturday. Oats ruled active, but unsettled and lower. The market opened %c lower, rallied a trifle, but fell back and closed %@ c under yesterday. The arrivals to-morrow are expected to be large, which was one of the leading causes for the decline. There were free offerings of pork, and the market fell 10@12%c. Lard declined 56 00 and closed steady. Flour-Dull and unchanged.
